Welcome to Enterprise 4.0

The MBA programme takes a long-term view of business education to prepare students for jobs of the future and Enterprise 4.0. We aim to empower aspiring professionals with the knowledge, mindsets and importantly, practical exposure to succeed.

Our inter-disciplinary, application-based curriculum draws on academic mentorship by Imperial College London and is suited for those who are academically proficient, keen to put knowledge to practical use and see themselves as builders, innovators and do-ers.

BML Munjal University (BMU) is founded by the promoters of the Hero Group.

The School of Management (SOM) at BMU

Our quest is to chisel out grounded business leaders who are comfortable in the uncertain, ambiguous reality of contemporary organisations, and have knowledge that can be put to practical application in the real world.

You go through an evolutionary journey from mere KNOWING (classroom delivery) to DOING (applying theory to take it to practice) and finally to BEING (realising your potential to achieve). Knowledge partners from diverse verticals, including consulting, technology, manufacturing and consumer services, ensure that your learning draws on a deep corporate connect. Live industry projects, mentorship and deeply experiential learning and pedagogies bridge the gap between education and industry.

When you graduate, you join a group of alumni who are grounded and application focused, with the ability to analyse problems from multiple perspectives and offer solutions that are conceptually and contextually sound. Our students are equally adept in contributing to the business objectives, and to becoming catalysts for positive change.

School of Management is ranked 54th All India in the Management Category

CENTRE OF EXCELLENCE

Founded By The Hero Group

The Hero Group, founded by Late Dr. Brijmohan Lall Munjal, has touched the lives of millions of people in India by delivering excellence in engineering products, services, and solutions in the most innovative and cost effective ways. Today, the group is diversified across more than 6 industry verticals encompassing Automotive & Auto Components, Financial Services, Renewable Energy, Electronics & IT Enabled Services, Higher Education & Training, and Real Estate.

BMU MBA Programme: Knowledge to application

At BMU, we go beyond what a traditional MBA curriculum imparts. While theory will be taught, the our focus is to promote hands-on learning and inculcate a raft of values, job, and life skills that prepare you for real world workplaces. From mentor networking and internship opportunities, to overseas and alumni events - the experience is designed to be liberating and enhancing, both personally and professionally.

Partnerships

BMU's academic mentor is Imperial College London, which is ranked 6th in the latest QS World Ranking of global universities.

Specialisations

The BMU MBA curriculum provides you the flexibility to develop skills and in-depth knowledge in your preferred area of study. Keeping in mind current industry requirements, we offer a series of specialisations for you to choose from, to accelerate your career in the competitive marketplace.

Marketing

Students who aspire to take up positions in sales, marketing, digital marketing, distribution or advertising should take up this specialisation.

This course, which primarily revolves around transforming consumer demands into profitable products and services, provides students a deep dive into sales and marketing strategies and tactics, relationship management, digital marketing, market research and consumer trends, and enables them to use tools around pricing, distribution, branding, advertising, etc. to ensure the everyday success of an organisation. Our course will also delve deep into digital marketing and its nuances, which are of paramount importance in today's connected world.

Human Resources

If you plan on a long-term career in HR or you are deeply interested in people, who make a difference in organisations, this course is for you.

Human Resource Management is a strategic approach for the effective management of people working in an organisation so as to ensure that the firm retains a competitive advantage. Maximising employee performance for strategic long term objectives. Human Resource managers who have the capability to provide a high return on the firm's investment on people, are seen to be important assets to the organisation.

Entrepreneurship

If you are planning a start-up, brimming with ideas or want to support the launch of new ideas, this course is perfect for you. Our course is tailored to enthusiastic thinkers who dream big and want to make a difference with entrepreneurship.

The specialisation in entrepreneurship will empower candidates who are employed within an organisation or want to work towards their own start-up through exposure to cutting-edge curriculum and practitioner faculty.

Business Analytics

Data management is to strategy what digital marketing is to marketing. Students who love big data and deep analysis would do well to take this course.

Business Analytics is being used to solve complex business problems in a variety of industries. It is a discipline that makes extensive use of data, statistical and quantitative analysis, explanatory and predictive modelling, and fact-based management to drive decision-making. It is a burgeoning industry, currently growing at a rate of 35% per year.

Operations & Supply Chain Management

The value for the customer is created by operations and is delivered by a robust supply chain. Students who thrive in handling logistics, supply chain, planning and execution would thrive in this course.

Today, efficient operations and effective supply chain are key towards an integrated and buoyant economy. This, along with digitisation and disruption fueled by innovation and technology, is going to pave the way for the operations and supply chain sector to witness an unprecedented transformation and growth. The inclusion of Lean Six Sigma and Business Excellence initiatives in Operations and Supply Chain Management enhances value to the industry.

Finance

Students who aspire to get into a senior financial management functions would do well to take this course. A good primary degree in Commerce or Finance would be an asset for this course.

The finance function is one of the major fulcrums in any organisation. Banking, Financial Services, Insurance and stock markets have always been vital sectors of the economy. For the same reason, MBA in finance has been one of the most coveted specialisations with career opportunities in corporate finance, banking, private equity, investment management, business analysis, credit analysis, stock markets and wealth management.

Strategic Management

While the rest of the organisation manages the day-to-day operations, a set of thinkers need to think long-term and advise the senior management on the future course of action. Students who can think and strategise for long-term success, and are good at analytics and predictive methodologies, will do well in this course.

Strategic management is the management of an organisation's resources to achieve its long-term goals. It involves setting objectives, analysing the internal & external environment, evaluating strategies, and ensuring their timely roll-out. Good strategic management helps maintain/enhance a firm's competitiveness. It requires connecting the dots of various functional areas – Sales & Marketing, Supply chain (both inbound & outbound), Manufacturing, HR, IT, Finance, Legal, and Back-office.

Pedagogy

Hands-on education or learning by doing is an integral component of BMU's teaching-learning environment. Studies have shown that students learn best and have a higher retention when they are encouraged to actively explore, experiment and work out demonstrable solutions to problems. Hands-on education challenges students to find new ways to master and apply complex concepts in life. It also sparks the love of learning, develops skills and the confidence to tackle the unknown.

In two years, a student undergoes a transition from being an individual contributor to a team player and leader, in an exciting journey which includes:

- Working on live projects in diverse study groups
- In-depth classroom discussions, facilitated by highly qualified and reputed faculty drawn from industry and academia
- Multiple teaching pedagogies – role plays, simulations, case studies, project work
- Simulations and Capstone Projects
- Applied Business Research Project
- Skill enhancement-based Personal Journal of Excellence courses
- Practice School and internship modules
- Attending a Global Leadership Module at Imperial College Business School
- Exposure to on-campus Centres of Excellence

Students have an opportunity to access industry experts, major corporates, investment banks, consultancies, venture capitalists and public sector organizations to ensure exposure to industry and its real concerns in multiple fora.

The Global Leadership Module

BMU's academic mentor is Imperial College London which is ranked 6th in the latest QS World Ranking of global universities. Besides faculty support, the partnership includes programme and curriculum design.

The MBA programme offers students an optional Global Leadership Module at Imperial College London. This programme allows students to gain new perspectives on global business practices, challenges and cultures. As part of the module, students go through two weeks of lectures and coursework at the partner university.

Courses focus on four areas - Leadership, Digital Marketing, Design Management and Business Models / Intellectual Property. The aim of the Global Leadership Module is to enable BMU students to think outside the box, comprehend the concepts of design-driven innovation and creativity, develop leadership competencies, and understand how to create stronger relationships with customers using digital media. The courses are delivered through a blend of traditional and modern learning techniques
